

Morningstar studio

Tina

My studio is filled with art inspired by nature.

What's new in the studio?

Vintage Doors are in the studio, leaning against the log cabin walls. They are a great background for hanging art, colors are showing up in a whole new way. Paintings and new drawings of Boneset, New York Fern, Toothwort, Black Cohosh, and a skipper butterfly visiting my Monarda plants, bring the natural world indoors.

Cards, book, gift baskets with art supplies, and more!

I have a variety of holiday cards for you. A new Cardinal card will brighten your holiday greetings. Sugarloaf Mountain is everywhere in the studio, paintings, prints and cards. Small prints, medium prints, and even an Orangutang could hang on your wall.
