

Greetings, a festive spirit is found in Morningstar Studio's 1790 log cabin studio.

Experience the winter magic in Historic Barnesville when you visit my studio. I will have Greens & Pinecones from the garden, candles warming the studio, and the new Asian water fountain, to create a relaxed studio setting for your visit. My art is inspired by the Sugarloaf countryside and field studies in Yosemite, CA. There are several new paintings and prints that are inspired by Half Dome in Yosemite National Park. As well as paintings & prints from the new Agricultural Reserve Sign I was commissioned to do for Historic Whites Ferry. Holiday cards, archival prints, art kits, a variety of botanicals, butterflies, and leaf prints off the press, might inspire someone on your holiday list! See you in the studio, Tina
